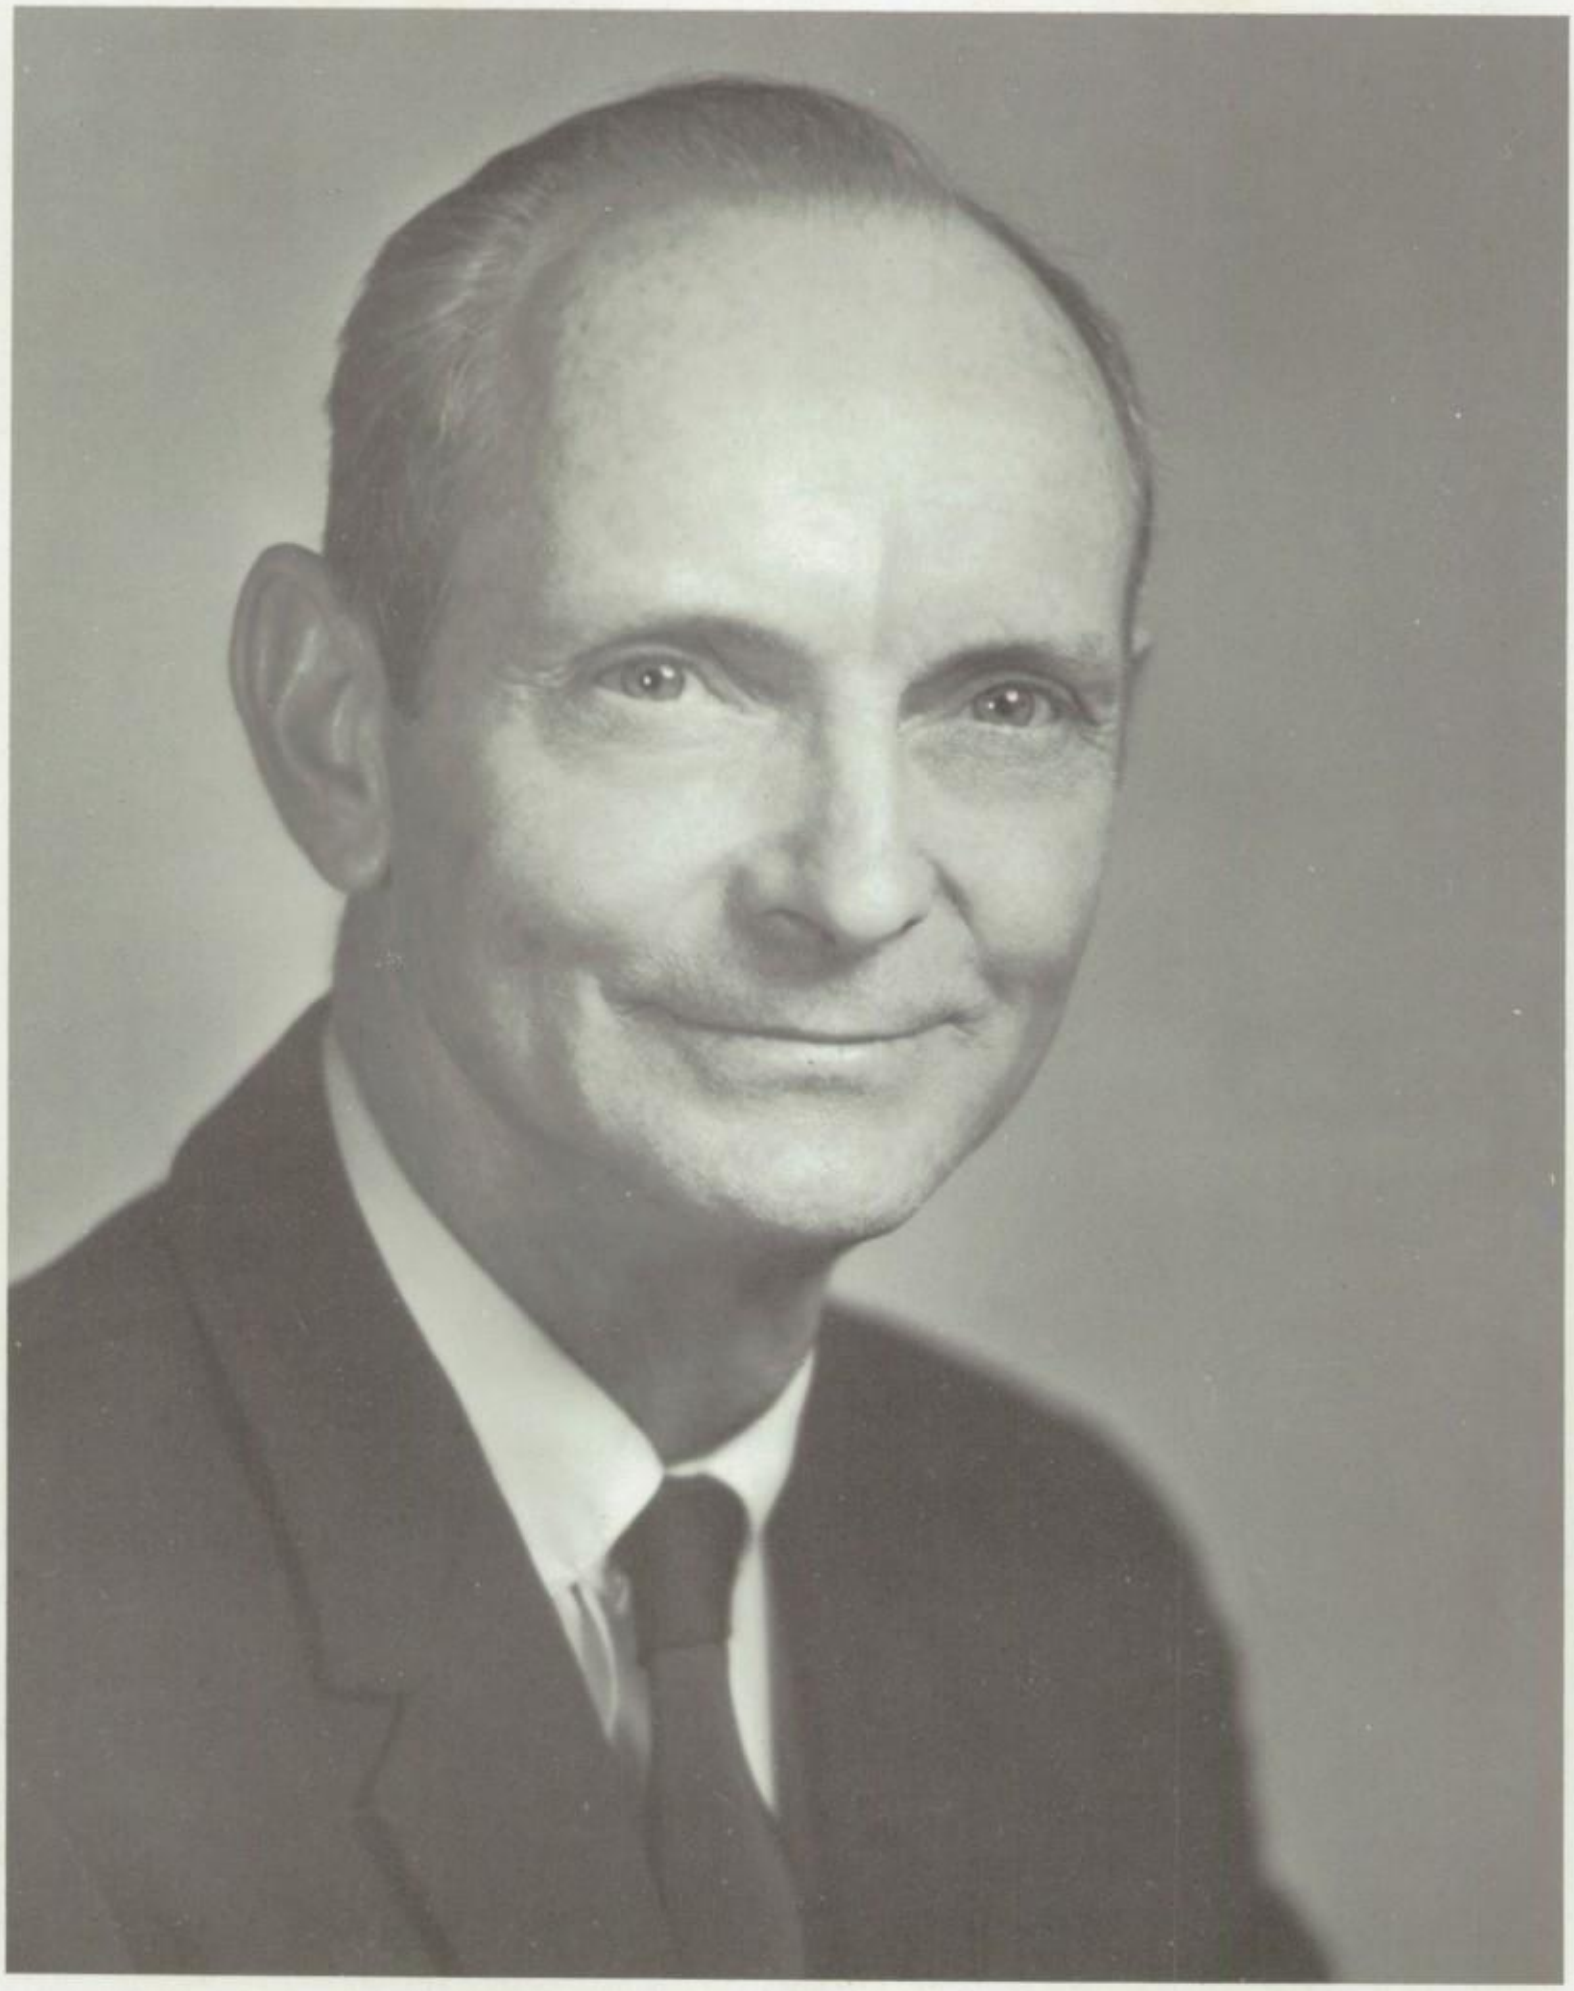
WARRIOR

Thelma Dilbeck's Book

THE WARRIOR

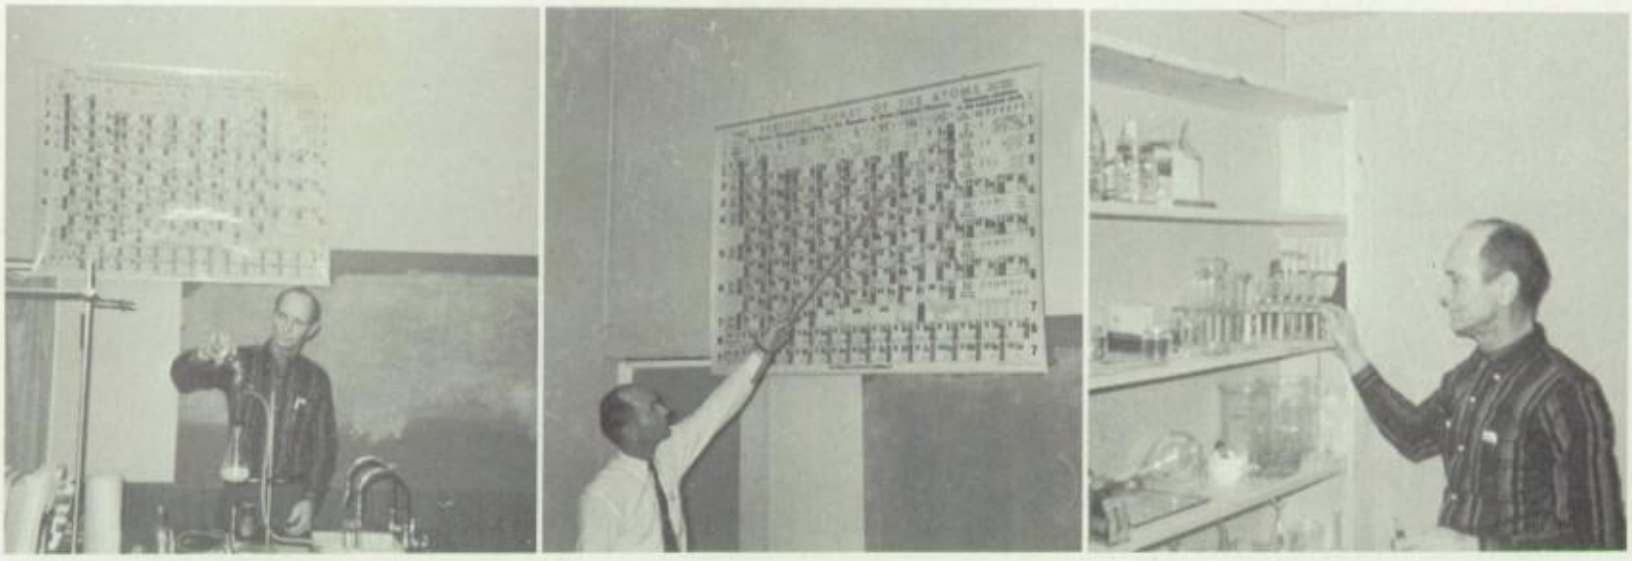
Published by
Senior Class of 1967
Cotter High School

Dedication



For his love of education, desire to work with students, and promote learning, for his patience and for his understanding, and with all the respect we hold for him, we the Seniors of 1967 proudly dedicate our yearbook to Mr. Henry Lee White.

Dedication



Mr. Henry L. White has been teaching for twenty-one years. Twelve of these have been in the Cotter School System, eleven in secondary education. Mr. White holds his Bachelor of Science degree from the University of Arkansas, where he majored in general agriculture and minored in animal husbandry.

Superintendent's Message

This compressed world interrelated with its idealogical, social and political conflicts brings on a greater need for independence and uniqueness.
It is desirable that each of us not only achieve, but retain a character that can combat interior and exterior forces that are constantly attempting to mold us alike.
It is hoped that your school has assumed its responsibility in developing leadership and worthy character for each student.

Robert J. Dunkle, Superintendent

Federal Coordinator's Message

Of all the assets of American Education, none is more valuable than the desire that each student has a want to learn. It is essential that we constantly fight to over come difficulty that would hinder this desire.
The student who learns well must learn with good intentions, but good intentions are not enough he must Act.
Drifting leads only to failure. We must keep in mind that the chief reason America has been able to steadily move forward has been due to the fact that there have always been those who have never allowed themselves to succumb to a poverty of constructive thinking, to a poverty of Spirit, ambition determination and challenge. Each of you have been given a bag of tools what each of you do with these is left to the individual.
We hope that you will realize the ambition and aspirations you have developed while a student at Cotter High School. May you put trust in God and strive to be trustworthy men and women.

Jim Fowler, Asst. Superintendent

Principal's Message

In a few short weeks you will begin a new phase of life. Some of you will continue your education in institutions of advanced learning while others will be seeking new experiences in other fields. Regardless of what you do, you must continue to learn because education is a never - ending process. Your status in life will depend, to a great extent, on your education, your attitudes and your desire and willingness to help yourself and others.
Take the basic educational tools and values you have received here at Cotter - expand them - keep them clean and healthy.
They will go far in helping you reach your goal in life.

Robert Stewart, Principal
